EIGHT MAN DIVISION NOTES

The list of undefeated players (3 or more wins) for the eight-man division is included. Please notify the Division Chairman if you discover any errors or oversights. Players with less than 3 wins were not included.

Team captains are again urged to check the spelling of all players. This assures accuracy in the rating list.

Approaching mid-season the standings are close to the usual pattern. There are a few exceptions. The undefeated player list is dominated by the first five teams.

SOLUTIONS TO LAST MONTH'S PROBLEMS

Problem #5 (J. Panecki, 1969) 1. N- Q4
 Problem #6 (E. Prandstetter, 1968) 1. Q-K8 but unfortunately cooked by
 1. R (3) x Bt, PxR; 2. Q-K7 etc. The diagram is correct. I have written
 to the editor who published the problem to complain.

The problem is withdrawn from competition. (Ironically, some of the less
 experienced solvers found the cook. A rule to all solvers: In general,
 the key will not check or capture an officer. Such an apparent key is
 either a cook or a solver's illusion).
